Carpentry Industry Consultation Forums

A tremendous turnout from industry stakeholders keen to provide input into the carpentry qualification has ensured success of the first four industry consultation forums held in Auckland and Hamilton. The feedback provided through the forums has proved invaluable thus far and BCITO would like to thank all those who have given their time to attend and contribute to the forums. We look forward to the remaining eleven forums around the rest of the country in the next few weeks.

BCITO Staff Strategic Planning Sessions

The BCITO is holding strategic planning sessions for BCITO staff to provide input into the development of the new Strategic Plan. The Strategic Plan will frame the focus and activity of the BCITO over the next few years. The planning sessions are a valuable opportunity for BCITO staff to provide feedback at different levels on our role in the building and construction sector.
